Friday, April 8, 2016

7:45 A.M. - 8:45 A.M.

Mount Sinai Hospital, 18th Floor, Ben Sadowski Auditorium 18 -130.

John Santelli, MD, MPH, FSAHM

Dr. John Santelli is the Harriet and Robert H. Heilbrunn Professor and Chair of the Heilbrunn Department of Population and Family Health and a Professor of Pediatrics at Columbia University. Dr. Santelli has conducted policy-related research on HIV/STD risk behaviors, trends in teen fertility, programs to prevent STD/HIV/unintended pregnancy, school-based health centers, adolescent clinical preventive services, and research ethics, particularly as it relates to adolescents. Dr. Santelli is a senior consultant for the Guttmacher Institute, a member of the Journal of Adolescent Health's editorial board, a member of the Lancet Commission on Adolescent Health and Wellbeing, and a past President of the Society for Adolescent Health and Medicine (SAHM). He is a national leader in ensuring that adolescents have access to medically accurate, comprehensive sexuality education and are appropriately included in health research. Dr. Santelli is the lead author on two SAHM position papers: "Guidelines for Adolescent Health Research" and "Abstinence-Only Education Policies and Programs."

Dr. Santelli received his MD from the Buffalo School of Medicine and his MPH degree from Johns Hopkins University. He completed a fellowship in Adolescent Medicine at University of Maryland Hospital. Before Columbia, he worked for nearly 20 years in local and national public health at the Baltimore City Health Department and the U.S. Centers for Disease Control and Prevention.

EDUCATIONAL OBJECTIVES

- Learn about recent and historical trends in adolescent fertility around the globe;
- Gain an understanding about key risk social and behavior factors for adolescent pregnancy
- Explore the impact of temporal changes in social factors and adolescent behaviors on the sharp declines in adolescent childbearing in developed and developing nations
