7:45 A.M. - 8:45 A.M.

St. Michael's Hospital Paul Marshall Lecture Theatre
(Queen St. entrance, behind Second Cup)

Drs. Rachel Spitzer and Heather Millar

Rachel Spitzer, MD, MPH, FRCS(C) grew up in Montreal and Toronto and obtained her BSc at McGill University in Montreal. Subsequently, she attended McMaster University medical school in Hamilton, from where she returned to Toronto to pursue residency training in Obstetrics and Gynecology at the University of Toronto. This was followed by fellowship training at The Hospital for Sick Children in Pediatric and Adolescent Gynecology where her clinical and research interests focus on complex contraception and adolescent pregnancy. Rachel went on to obtain her Master's in Public Health at Harvard University in 2007/2008 with a concentration in International Health and an interdisciplinary concentration in Women and Gender Health. Rachel returned to Toronto as Assistant Professor in the department of Ob/Gyn at the University of Toronto in the summer of 2008 and was Faculty Lead for Global Health in the Undergraduate Medical Program from 2011-2016 and became Vice Chair of Global Health in the department of ObGyn in 2014. In 2015 she was promoted to Associate Professor in the department. Rachel is cross appointed to the Dalla Lana School of Public Health at U of T. She combines clinical practice of general and pediatric and adolescent Obstetrics and Gynecology with the practice and teaching of global women's health.

Heather Millar completed her residency training in Obstetrics and Gynaecology at the University of Toronto in 2015. She then spent 2015-2016 as the Reproductive Health Team Leader for the AMPATH Consortium as well as a Visiting Lecturer in Reproductive Health at Moi University in Eldoret, Kenya. She is currently completing our new fellowship in Global Women's Health and Equity and is the Co-Director of Research for AMPATH-RH.

EDUCATIONAL OBJECTIVES

1. Update the audience on the global health relevance of ObGyn and our program's international affiliations
2. Describe the opportunities for global health training in ObGyn
3. Inform the audience about the creation of Canada's first fellowship program for Ob/Gyn in global health and equity and describe the program created
4. Situate the above in the context of International Women's Day March 8th
