Speaker: Dr. Vanessa Redditt, MD CCFP

Staff, Crossroads Refugee Clinic, Women's College Hospital
Lecturer, Dept of Family & Community Medicine, University of Toronto

Vanessa Redditt is a family physician at the Crossroads Clinic, a specialized primary care clinic serving newly arrived refugees, at Women's College Hospital. She is interested in enhancing the health of marginalized individuals and communities through clinical care, health system improvement, and tackling social inequities. In her research, she is investigating the health status of newly arrived refugees and their experiences in the health care system, with a goal of improving clinical practices and care delivery models to better support the unique needs of this population. She has also worked internationally in health system strengthening and health worker training initiatives, including in Rwanda and Brazil.

EDUCATIONAL OBJECTIVES

1. Review demographics of refugee migration globally and to Canada
2. Describe unique aspects of care for refugee adolescent girls
3. Identify opportunities for promoting resilience and strengths
