Sunnybrook Health Science Centre
Room M6 502

Dr. Timothy Rowe

Editor-in-Chief, Journal of Obstetrics and Gynaecology Canada

Dr Rowe received his undergraduate medical training at the University of Adelaide in South Australia and his residency training in obstetrics and gynaecology in Australia, Canada, and the United Kingdom, followed by subspecialty training in reproductive medicine at the University of Sydney in Australia. For 35 years, he has been affiliated with the Department of Obstetrics and Gynaecology at the University of British Columbia, and was Head of the Division of Reproductive Endocrinology and Infertility until 2014.

He is on the editorial board of four journals, and since 2005 he has been the Editor-in-Chief of the Journal of Obstetrics and Gynaecology Canada. He is a founding member of the Crown Initiative, an undertaking now involving the editors of 73 journals of obstetrics and gynaecology; the Initiative's purpose is to develop core outcome sets for research in women's health. He has published 11 book chapters and over 170 editorials and journal articles, and he co-authored the textbook Gynecology: A Practical Approach.

His clinical practice is in reproductive endocrinology and infertility, with focus on the former. His hobbies include making tea and pointing out deficiencies in public services.

EDUCATIONAL OBJECTIVES

- To understand how the academic publishing world is changing
- To understand what editors want in manuscripts submitted to academic journals
