

ROTATION PLAN – Obstetrics and Gynaecology Residency Program

May 30, 2019

OBSTETRICS AND GYNAECOLOGY ROTATION PLAN (2019-20)

NAME OF ROTATION: **Ultrasound**

FOCUS OF THIS ROTATION

- Learn the basics of Obstetrics and Gynaecology ultrasound.

CBD stage(s) for this rotation:

- Foundations of Discipline (FOD)

Length of this rotation:

- One-(1) Block

PGY Level(s) for this rotation:

- PGY1

Locations for rotation:

- Mount Sinai Hospital (MSH), Sunnybrook Health Sciences Centre (SHSC), St. Michael's Hospital (SMH)

Required training experiences included in this rotation

- TE FOD 1.4 Unit(s) performing obstetrics and gynecology ultrasounds

Other training experiences that may be included in this rotation

- SF education program (Tuesday mornings)
- OBGYN education program (some Tuesday afternoons)
- On-call per schedule

	EPAs Mapped to this rotation:	Total # of Entrustments	Assessment Tool # & Name:
1.	OG EPA FOD-2 Performing assessments of antenatal fetal well-being	10	OG EPA FOD-2 (Assess antenatl fetl well-bng)

	Other assessments during this rotation:	Tool Location / Platform (e.g. POWER, Entrada):
1.	Procedure logging	DOC: Microsoft Web Forms (Office 365)
2.	ITAR (In-Training Assessment Report)	POWER

ROTATION PLAN – Obstetrics and Gynaecology Residency Program

May 30, 2019

	Key Objectives for this Rotation:	CanMEDS Role(s):
1.	Demonstrate knowledge of the basics of ultrasound safety, ultrasound physics and machine operation to obtain necessary information to provide an obstetrical and gynaecological assessment.	Medical Expert
2.	Demonstrate an understanding of the role, indications, and timing for ultrasonography in obstetrical care including components of different studies (e.g. fetal anatomy scan and biophysical profile). Interpret ultrasound in obstetrical care.	Medical Expert
3.	Demonstrate competency in performance of ultrasound procedure skills for: <ul style="list-style-type: none"> a) Biophysical profile for fetal well being b) Fetal number and position c) Fetal presentation d) Placental location. e) Fetal biometry 	Medical Expert
4.	Physician/Patient Relationship Objectives: <ul style="list-style-type: none"> a) Establishes a therapeutic relationship with patients/families. b) Listens effectively, discusses appropriate information with patients/families c) Teaches patients/families, as appropriate with respect to ultrasound findings related to fetal viability, anatomy, and well-being during the antenatal course. 	Communicator
