

ROTATION PLAN – Obstetrics and Gynaecology Residency Program

May 30, 2019

Obstetrics and Gynaecology ROTATION PLAN (2019-20)

NAME OF ROTATION: FOD Obstetrics and Gynaecology

FOCUS OF THIS ROTATION

- Provide obstetric and gynaecologic care
- Perform uncomplicated vaginal and operative deliveries
- Perform simple gynecologic surgeries

CBD stage(s) for this rotation:

- Foundations of Discipline (FOD)

Length of this rotation:

- 12 blocks (carried out in 1-3 block periods over the first two years of residency)

PGY Level(s) for this rotation:

- PGY1
- PGY2

Locations for rotation:

- Sunnybrook Health Sciences Centre (SHSC), St. Michael's Hospital (SMH), Mount Sinai Hospital (MSH)
- Michael Garron
- NYGH

Required training experiences included in this rotation

- TE FOD 1.1 Obstetrics clinic
- TE FOD 1.2 Gynecologic clinic
- TE FOD 1.3.1 Hospital settings providing experience with obstetrics and gynecology patients in Obstetric triage
- TE FOD 1.3.2 Hospital settings providing experience with obstetrics and gynecology patients in Labour and Delivery
- TE FOD 1.3.3 Hospital settings providing experience with obstetrics and gynecology patients in Inpatient obstetrics service
- TE FOD 1.3.4 Hospital settings providing experience with obstetrics and gynecology patients in Inpatient gynecology service
- TE FOD 1.3.5 Hospital settings providing experience with obstetrics and gynecology patients in Gynecology operative experience
- TE FOD 1.3.6 Hospital settings providing experience with obstetrics and gynecology patients in Consultative service to the emergency department and inpatient services
- TE FOD 1.3.7 Hospital settings providing experience with obstetrics and gynecology patients in After-hours coverage
- TE FOD 2.5 Participation in quality assurance/improvement activities (e.g. presentation at rounds)

Other training experiences that may be included in this rotation

- SF education program (Tuesday mornings – PGY1 only)
- OBGYN education program (some Tuesday afternoons)
- On-call per schedule

ROTATION PLAN – Obstetrics and Gynaecology Residency Program

	EPAs Mapped to this rotation:	Total # of Entrustments
1.	SF EPA FOD-3 Assessing and performing risk optimization for preoperative patients in preparation for surgery	2
2.	SF EPA FOD-4 Providing patient education and informed consent in preparation for surgical care	2
3.	SF EPA FOD-5 Demonstrating the fundamental aspects of surgical procedures	2
4.	SF EPA FOD-6 Participating in surgical procedures	2
5.	SF EPA FOD-7 Managing uncomplicated postoperative surgical patients	2
6.	SF EPA FOD-8 Managing postoperative patients with complications	2
7.	SF EPA FOD-9 Supervising junior learners in the clinical setting	2
8.	OG EPA FOD-1 Providing routine prenatal care to a low-risk, healthy population	5
9.	OG EPA FOD-2 Performing assessments of antenatal fetal well-being	10
10.	OG EPA FOD-3 Assessing and providing initial management for patients with common obstetric presentations	10
11.	OG EPA FOD-4 Managing labour and childbirth	5
12.	OG EPA FOD-5 Performing uncomplicated cesarean sections with a skilled assistant	5
13.	OG EPA FOD-6A Providing early postpartum care – Normal Course	5
14.	OG EPA FOD-6B Providing early postpartum care - Common Complications	5
15.	OG EPA FOD-7 Providing consultation and initial management for patients with urgent and emergent gynecologic presentations	5
16.	OG EPA FOD-8 Counselling and management for patients requiring family planning	5
17.	OG EPA FOD-9 Providing consultation for patients with gynecologic conditions	5
18.	OG EPA FOD-10 Performing minor gynecologic operative procedures	10
19.	OG EPA FOD-SA1 Performing critical appraisal of health literature and initiating a scholarly project	2 (Part 1=1; Part 2=1)

	Other assessments during this rotation:	Tool Location / Platform (e.g. POWER, Entrada):
1.	Procedure logging	DOC: Microsoft Web Forms (Office 365)
2.	ITAR (In-Training Assessment Report)	POWER
3.	O-SCORE	DOC: Microsoft Web Forms (Office 365)

ROTATION PLAN – Obstetrics and Gynaecology Residency Program

	Key Objectives for this Rotation:	CanMEDS Role(s):
1.	Obtain a complete, systematic, and appropriate history from a patient. Conduct the physical assessment, detect important findings, and recognize the significance.	Medical Expert
2.	Demonstrate knowledge of common obstetrical and gynaecologic conditions and formulate an appropriate differential diagnosis and treatment plan. Relate clinical findings to the clinical picture. Determine appropriateness of common invasive investigations.	Medical Expert
3.	Manage the labour and delivery of obstetric patients, achieving competence with low risk patients and demonstrating an understanding of participative care of high-risk obstetric patients in collaboration with more senior colleagues.	Medical Expert
4.	Interpret fetal heart rate tracings accurately.	Medical Expert
5.	Demonstrate competency in Gynaecologic procedure skills, including uncomplicated D&C, basic hysteroscopic procedures, basic laparoscopic procedures (tubal ligation, ovarian cystectomy, Salpingo-oophorectomy), abdominal entry using Pfannenstiel or midline incision, and uncomplicated abdominal hysterectomy.	Medical Expert
6.	Demonstrate competency in Obstetrics procedure skills including spontaneous vaginal delivery, outlet vacuum deliveries, repair of perineal lacerations and episiotomies, uncomplicated primary cesarean section, and uncomplicated repeat cesarean section.	Medical Expert
7.	<p>Physician/Patient Relationship Objectives:</p> <ol style="list-style-type: none"> 1. Establish therapeutic relationship with patients/families. 2. Elicit the trust and cooperation of the patient. 3. Teach patients/families, as appropriate. <p>Listen effectively, and discuss appropriate information with patients/families.</p> <ol style="list-style-type: none"> 2. Convey bad news with empathy to patients and families. 	Communicator
8.	Teach medical students, junior residents, and other staff in the obstetrical unit and operating room.	Scholar
