

We are pleased to announce our first virtual **Intrapartum Care Conference**. For many years the University of Toronto Dept. of Obstetrics & Gynaecology, in partnership with university affiliated hospitals has developed a robust postgraduate education program with the goal of equipping health care professionals in the clinical management of their gynaecologic & obstetrical patients.

In these exceptional times, our faculty are determined to continue be a source of educational support for you and we would like to you to join us as we move to a virtual platform for the next several months.

We have enlisted some of our most informed and engaging clinicians/teachers to present on many important topics in women’s health.

- Most of our programming will move to a half day format (but not this one!)
- More concise lectures with a Q & A box to ask all your questions
- Interactive polling, pre and post tests and online evaluations will give instant feedback
- All sessions will be recorded so that you will be able to review any lectures post conference
- Certificates of attendance and receipts will be emailed to all participants post conference
- Registration fees have been reduced significantly

Please plan to join us! We look forward to seeing you online and being with us for what we plan to be an enjoyable learning experience!

Intrapartum Care Webcast

8:55 Welcome and Opening Remarks
Wendy Whittle

Session I

9:00 **COVID in Pregnancy: What We Have Learned**
Wendy Whittle

3:30 Closing Remark & Evaluation

Course Directors

Sebastian Hobson

Assistant Professor, Dept. of Obstetrics & Gynaecology,
University of Toronto
Mount Sinai Hospital

Wendy Whittle

Assistant Professor, Dept. of Obstetrics & Gynaecology,
University of Toronto
Head - Labour and Delivery, Mount Sinai Hospital

Planning Committee members:

Carmen Felix, Rob Gratton, Jessica Green, Natalie Morson and Nancy Watts

Course Objectives

- To provide an update by a multidisciplinary team on best practice and what is changing and evolving with regard to the management of pregnant women in triage, labour, delivery and the immediate postpartum period (This will include all pregnant women presenting at term or in preterm labour with live or stillborn fetuses)
- To present the audience with up-to-date management protocols in complex labour and delivery situations
- To provide a platform for a multidisciplinary team to share cases and discuss clinical, logistic and economic issues related to contemporary labour and delivery management
- To identify knowledge gaps, generate ideas and enhance collaboration with regard to research on the management of labour and delivery

Accreditation

This program has been submitted with appropriate accreditation bodies and accreditation points will be announced closer to the date of the program. (6.0 teaching hours)
